WINE CELLARS

ELEGANCE INSPIRES

Discover heritage-grade wine cellars, handcrafted for the discerning individual and exuding the irresistible warmth and natural character of bronze.

We cherish the timeless value of bronze as we build upon a tradition of excellence centuries in the making. Everything we create is tailored to the needs of owners, designers and architects. Culminating in distinctive designs that innovate and inspire.

When you choose Renaissance Genuine Solid Bronze, you're choosing exceptional elegance, expert craftsmanship and enduring value. You're choosing the very things bronze embodies.

INSPIRING WINE CELLARS BUILT WITH GENUINE BRONZE

Renaissance Genuine Solid Bronze specializes in bespoke architectural bronze products for luxury homes and commercial properties.

WHY BRONZE?

It's much more resistant to adverse conditions than traditional alternatives and unlike aluminum or steel, it doesn't rust or degrade.

NOTHING IS AS ELEGANT AS BRONZE

When it comes to substance, strength and style, nothing is as true or time-tested as bronze. Luxurious luster, dependable durability have made it a material for the ages.

Our hand-crafted, high-quality wine cellars withstand changes in temperature and humidity without corroding, cracking, or losing their visual appeal.

Moreover, our Revival, Nexus, Omnia and Luxe product lines are all custom-built to fit the exact specifications of your space.

CUSTOM LUXURY AT ITS FINEST

NOTHING FITS BETTER
THAN CUSTOM

Revival

Completely new and designed to complement the most contemporary spaces, Revival features an Angle Frame and insulated glass to offer crisp lines, a narrow profile and premium protection with no division bars.

Nexus & Omnia

Convenient configurations make Nexus and Omnia the perfect platforms for customization - and are the most popular choices. Unified-size doors, sidelights, transoms, insulated glass, thermally broken frames and a range of patina finishes allow for seamless integration into any interior.

Luxe

Crafted for the most discerning, Our Luxe Line is for commissioned projects, with the only prerequisite being bronze. Luxe cellars have included glass floors, mirrored ceilings, and bronze wine racks.
